

CRIES FOR BREAD TO SAVE POLES HEARD HERE

Relief for Luckless Nation Plan of Tacomans.

With committees already working in New York and other large cities of the United States, the Polish people of Tacoma are attempting to arouse interest in establishment of a general committee to raise money and food for needy Poles in Europe. Those who have started the movement here hope to create interest similar to that manifested in the work of the Belgian relief committee several months ago.

In other cities the committees for Polish relief contain persons prominent the world over. It is said there are millions of Poles in dire need, driven here and there by the armies at war, their country devastated, the Polish men forced to fight in different armies against each other, due to the subjection and rule of Poland by greater nations.

"Will You Save a Life?"

The Poles of Tacoma have issued an appeal in which the question "Will you save a life?" is asked.

"Help us to save our country from her terrible distress," says the appeal. "Let us give the laborer bread to restore his strength, and seed wherewith to reap his future harvest. May Polish mothers be enabled to give their famished children something more than tears. May the Polish nation survive this hour of supreme trial and renewed hope and strength await the dawn of their near resurrection."

May 3 is Constitutional day for the Polish people and a celebration is to be held at Polish hall, East 30th and I streets, by the Tacoma organization tomorrow, beginning at 2 o'clock. Speeches will be made and further plans of relief work in Tacoma worked out. The society meets every Thursday night at the hall.
