
CANADA SEEKS IRISHMEN

Campaign to Be Started to Turn Immigration That Way

Special to Post-Intelligencer.

NEW WESTMINSTER, B. C., Feb. 23.
—With the object of diverting Irish immigration from the United States to Western Canada, the Dominion government is planning a crusade to induce Irishmen settled in this country to write letters describing their experiences in this country. These, signed and properly attested, will be circulated in the districts whence the writers came, and correspondence will be solicited.
