

INDIANS TO CUT TIMBER

Five Million Feet to Come From Klamath Reserve This Year.

KLAMATH FALLS, Or., Jan. 16.—(Special.)—Five million feet of lumber will be cut from the Klamath Indian reservation this year under the supervision of the Federal Forest Service. One million feet of logs already have been cut and are ready to be driven down Wood River and across Klamath Lake to this city.

The work will be completed next Winter, almost wholly by Indian labor.
