

MILL WORKERS ASK EMPLOYERS TO DO AWAY WITH HINDUS

Special to the Post-Intelligencer.

EVERETT, Sept. 30.—A strike of the Mill Workers' Union in Everett is contemplated, to force employers to cease employing Hindu labor. The Trades Council committee on Anti-Hindu labor has asked a committee of business men to wait upon employers and endeavor to persuade them to discharge the Hindus. Mayor Jones will also work with the committee.

The millmen say that under no circumstances will they pay more for white labor than they are now paying the Asiatics, which is an average of \$1.75 per day. The mill workers offer to furnish white men for the places, but will not meet the Hindu wage, stating that this action on the part of the millmen only proves the contention of the mill workers that the employment of Asiatics is intended to be used as a club for the reduction of wages and lowering the standard of living of the white man to a level with the Asiatics.
